## NeuroStar® Advanced Therapy Enhanced With Wi-Fi Capabilities

April 6, 2023

**Fifth FDA clearance in less than two years offers greater connectivity and flexibility to improve the patient and provider experience**

MALVERN, Pa., April 06, 2023 (GLOBE NEWSWIRE) -- Neuronetics, Inc. (NASDAQ: STIM), a commercial stage medical technology company focused on designing, developing, and marketing products that improve the quality of life for patients who suffer from neurohealth disorders, announced improved internet connectivity capabilities, particularly for NeuroStar providers with restricted networks.

"By integrating Wi-Fi capability into the NeuroStar system, providers now have greater flexibility in where they place their NeuroStar system and have access to more connectivity options for TrakStar," stated Cory Anderson, SVP of R&D and Clinical. "This latest advancement demonstrates our continued commitment to invest in technology that streamlines practice operation and allows improved access to TrakStar insights."

NeuroStar providers using the [3.7 platform](#) now have improved internet connectivity, granting access to all the features and benefits previously exclusive to TrakStar cloud customers while maintaining HIPAA compliance and patient security. This feature also allows data collection from additional practices, enhancing the ability to gather insights from a broader cross-section of practices.

"The new Wi-Fi feature of the NeuroStar system is exciting to have," said Dr. Kenneth Pages, TMS of South Tampa. "It allows my practice to concentrate solely on delivering the best possible patient care while simplifying day-to-day operations."

Neuronetics recently [unveiled](#) the first of multiple software releases for the TrakStar® Patient Data Management System this year, alongside a new educational campaign, "Get There FASTER with TrakStar," aimed at NeuroStar providers. ### About Neuronetics

Neuronetics, Inc. believes that mental health is as important as physical health. As a global leader in neuroscience, Neuronetics is redefining patient and physician expectations with its NeuroStar Advanced Therapy for Mental Health. NeuroStar is a non-drug, noninvasive treatment that can improve the quality of life for people suffering from neurohealth conditions when traditional medication hasn't helped. NeuroStar is FDA-cleared for adults with major depressive disorder (MDD), as an adjunct for adults with obsessive-compulsive disorder (OCD), and to decrease anxiety symptoms in adult patients with MDD that may exhibit comorbid anxiety symptoms (anxious depression). NeuroStar Advanced Therapy is the leading transcranial magnetic stimulation (TMS) treatment for MDD in adults with over 5.3 million treatments delivered. NeuroStar is backed by the largest clinical data set of any TMS system for depression, including the world's largest depression Outcomes Registry. Neuronetics is committed to transforming lives by offering an exceptional treatment that produces extraordinary results.
